BOOSTER FIGHT GEAR

Boxing gear care

Gloves, shin guards and other boxing equipment

Empty your gym bag after training

Take your gear out after every session. Never leave damp gloves or other equipment in a closed gym bag overnight.

Let your gear air-dry completely

Wipe off sweat with a soft cloth. Dry your gear in a well-ventilated place, away from direct sunlight and heat. Store it somewhere dry.

Condition genuine leather

Regularly apply a thin layer of leather conditioning cream suitable for the finish. Follow the cream’s instructions and apply it to clean, dry leather.

Moisture shortens the life of your gear

Trapped sweat and damp storage can significantly shorten the lifespan of both genuine and synthetic leather equipment.
